

ENRICHING THE COMMUNITY

A monthly publication for friends of Family Enrichment Network

Program Development

Our Program Development department is constantly evaluating our community's needs and looking for ways to meet these needs through the provision of quality and progressive programming. All of which are in line with Family Enrichment Network's mission and vision to help make a brighter future for those looking for a better way in life. This last year we developed our new three year Strategic Plan. This plan has been developed from input of staff, community members, and board members to: increase our effectiveness and efficiency; enhance our understanding; promote good decision making; enhance our organizational capabilities; improve our communication and stay on top of emerging trends.

Our Program Development department is steadily resilient, busy at work keeping up with identified needs. This department works hard to generate resources to be used for quality community programming. In times such as this, we look at our strong network of collaborators and friends who have pulled together to meet the needs of the community and are grateful for the services we are all able to provide our community. We are dedicated to meet community demands and continue to strengthen core services that have helped so many families throughout the Southern Tier.

We are thankful for all of your support and look forward to continued opportunities to provide quality programming to the community. For more information on Program Development, please contact April Ramsay, Director of Program Development at (607) 723-8313 ext. 886 or via email at aramsay@familyenrichment.org.

The mission of Family Enrichment Network is to provide supportive services for the optimal development of children and families. We believe in coordinating children and family services using a comprehensive and collaborative approach to improve their quality of life while ensuring the greatest value for our investment in child, adult, and parent development.
